Profile

Aspiring to excel in an environment that fosters professional growth, I seek opportunities to leverage my expertise effectively. My profile is defined by exceptional communication and interpersonal competencies, complemented by a track record of thriving independently and as a collaborative team player. I am dedicated to making valuable contributions while advancing my career

Education

BTech in CIVIL ENGINEERING

MBITS Engineering College, Nellimattom

2018/09 – 2022/05 | Ernakulam, India

Senior Secondary Education (Computer Science)

Jayakeralam HSS, Pulluvazhy

2016/08 – 2018/03 | Ernakulam, India

Professional Experience

Intern Fullstack Devoleper

Techwingsys

2022/09 – 2023/04

- Collaborating with senior developers and designers to implement web applications using HTML, CSS, and JavaScript, ensuring high-quality user experiences.
- Experience in Frontend/Web technologies and backend services.
- Engaging in ongoing teamwork, attending regular meetings, and participating in code reviews to maintain a collaborative and innovative work environment.
- Actively participated in various projects & initiatives to contribute to the company's success.

Projects

BLOG App

MERN

- Developed a full-featured blog sharing app using React.js, Redux, Node.js, Express.js, and MongoDB.
- Implemented user authentication with JWT, allowing secure registration and login.
- Enabled user interactions through features like creating blogs, liking, and commenting on posts.
- Integrated search functionality and profile picture updates using Cloudinary.
- Deployed the application on Vercel, ensuring scalability and reliability.

Income Expense Tracker

MERN

- Developed practical experience in developing a full-stack web application using Express.js, MongoDB and React.js.
- The project was focused on the development of an income-expense tracker system that included user authentication, category management, and transaction recording functionalities.
- Learned and understood React and its ecosystem on a deeper level.
- React-Redux is used for state management, mastered how to handle data with React Query,. UI/UX made by Bootstrap. Formik and Yup for managing form state and performing schema validation efficiently.
- Project is Live

Online E-Learning Platform

Python Django is used to complete the project

- During a 7-month internship at Techwingsys, Ernakulam, I developed Prodigy, an online learning platform using the Python Django framework.
- This project honed my skills in code management, database administration, and backend development.
- I used Python for backend logic and integrated HTML, CSS, and JavaScript for frontend templates. In addition,

Skills

Express.JS

MVC

MongoDB

Postman

React.JS

React-Redux

Restful API

JavaScript ES6

Version Control (Git)

Python Django

MVT

Python Language

PostgreSQL

HTML

Cascading Style Sheets

Database design and management

Object Oriented Programming – (OOPs)

NoSQL

SQL

C++

C Language

Microsoft Office

- I integrated Razor Pay for secure online transactions to further enhance my experience in web development and payment gateway integration.

OLX Clone

React JS

- Developed an OLX clone, a multipage web application with React, using Firebase for database connectivity.
- Expertise includes user authentication, data fetching, and the usage of React libraries.
- The knowledge of JSX syntax comes in handy while doing front-end development.

Practical Skills

Strong interpersonal communication skills

Excellent troubleshooting and analytical skills

Decision-Making

Effective Collaboration and Teamwork.

Certificates

- Fullstack web development MERN STACK (Udemy)
- Python Development Certified Professional (Techwingsys)
